

2012 Precision Machining Technology Contest Update

The new facility at WATC/NCAT Campus, 4004 N. Webb Road, Wichita KS 67226 has 5 sets of matching lathes and mills that will be used for our contest.

The maximum number of contestants is 25. That means that local contests must be held at your schools and only the top 3 contestants registered for the state competition. The number of 3 means the total number of PMT contestants from your school.

The contest chair asks that the following tools be brought in for your contestants:

- Safety glasses
- Precision measuring tools
- Dial indicator with base
- Edge finder
- Small container of tapping/cutting fluid
- A set of Allen wrenches

The chair of the Precision Marching Technology contest is Mark R. Lester. He may be contacted by **instructors only** at 316.640.7807 (cell) or mark.lester1@cox.net.
